

SECRET
UNITED STATES GOVERNMENT

Memorandum

TO : Registrar/TR

DATE: 24 May 1965

FROM : Chief, External Training Branch, RS/TR

SUBJECT: Bi-Weekly Activities Report No. 11
10 May - 21 May 1965

25X1
1. As we have not yet received our CONARC quota, [redacted] called Fort Monroe. She was informed that CIA was not allocated quotas for the first half of the fiscal year. There was understandably a lot of checking done at both ends. Our memorandum requesting quotas is dated 18 December 1964, addressed to Col. A. L. Ransome, AGC. To make a long story short, they gave us the first quarter requirements by phone and will confirm the remainder by memorandum this week. Mr. Massey (Chief of Requirements) asked us not to send a confirmation memorandum. I assume that he would rather not have it go through his "front office."

During the conversation [redacted] was informed 25X1
that the input for the Chemical, Biological, Radiological Weapons Orientation Course will be drastically cut. Our yearly requirement is 65.

The Army Management Course is being revised and will be called the Army Installation Management Course. The new course begins on 7 September for three weeks. A grade waiver may be requested for GS-11's and GS-12's. 25X1

4. In the last weekly, [redacted]
on [redacted] requesting his TDY return to headquarters
from [redacted] prior to his assignment to [redacted]

25X1

[redacted] Neither FE nor NE Personnel saw any
reason for this. Now -- the Station informs us that it was
for medical reasons they wished the dependents to return.
Dr. Tietjen wants their return as he does not feel our Medical
Officer out there is qualified to make a decision in this case.
The chronology of events and completeness of information
leaves a lot to be desired. It is, however, clear I must again
return to [redacted]
